EXECUTIVE LEADERSHIP FOR CLIMATE CHANGE, ESG AND SUSTAINABLE DEVELOPMENT COURSE

Introduction

The Executive Leadership Course for Climate Change, ESG and Sustainable Development is Trust Gate Corporate Skills' flagship executive leadership programme designed for C-suite executives, board members, policymakers, regulators, development partners, senior public sector leaders, and corporate executives responsible for shaping sustainable organizations. The course provides an integrated executive framework that combines climate leadership, ESG governance, sustainable finance, enterprise risk management, organizational transformation, innovation, digital technologies, stakeholder engagement, performance management, and sustainable strategy execution. Participants will develop advanced competencies in leading sustainability transformation, designing climate-responsive strategies, governing ESG implementation, managing climate and sustainability risks, mobilizing sustainable finance, driving green innovation, measuring ESG performance, and building resilient organizations capable of thriving in a rapidly changing global environment. The programme is benchmarked against internationally recognized sustainability, governance, finance, and leadership frameworks including the United Nations Sustainable Development Goals (SDGs), Paris Agreement, UN Global Compact, IFRS Sustainability Disclosure Standards (ISSB), Global Reporting Initiative (GRI), ISO 37000 Governance of Organizations, ISO 31000 Risk Management, ISO 56002 Innovation Management, Task Force on Climate-related Financial Disclosures (TCFD), and the OECD Principles of Corporate Governance.

Course Objectives
